Crawls must run during programming for no fewer than 60 consecutive seconds across the bottom or top of the viewing area (See rules for additional details).

Pursuant to DA 08-757, the reporting period covered by the instant report only includes one day, March 31, 2008. Nonetheless, this report provides information about voluntary measures taken by the Station prior to the effective date of the applicable rule.

KITV and satellite stations KHVO & KMAU have been airing DTV Transition-Related PSA's since November 2007. PSA's are supplied by the NAB, and run 15 and 30-seconds in length. They include important information to educate consumers about DTV Transition. We run many more PSA's than the rules now suggest as a minimum.

DTV Transition-Related crawls began on March 31, 2008 on KITV/KHVO/KMAU. Here's the text:

On February 17, 2009, full-power analog broadcasting will end, and analog-only televisions may lose the signal being viewed unless the viewer takes action, such as obtaining a converter box. Analog-only TVs should continue to work as before with cable and satellite TV services, gaming consoles, VCR's, DVD players and similar products. Viewers may get more information by going to www.kitv.com and clicking on Countdown to Digital and/or may get information on the converter box program by calling 1-888-DTV-2009. Viewers on Kauai may get information specific to them at LPTVAnswers.com.
